Ordinance creating Economic Opportunity for low-income Newark residents in the City of Newark lead-based paint activities contracting.

WHEREAS, there is a high incidence of unemployment, under-employment, and poverty among Newark residents, which has numerous adverse and costly consequences for the City, including an increased need for City-funded social services for the indigent; and increased incidence of crime and the human and fiscal costs associated with it; and an increased incidence of urban blight, resulting in a decreased City property tax base; and

WHEREAS, low-income Newark residents, particularly children suffer disproportionately from lead poisoning as a result of deteriorating lead-based paint which incidence in Newark is the highest in the State; and

WHEREAS in order to protect Newark residents who reside in housing containing deteriorating lead-based paint, it is necessary that lead-based paint be abated by workers who are properly trained; and

WHEREAS, the city of Newark received financial assistance from the U.S. Department of Housing and Urban Development to fund abatement of lead-based paint which is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C.*1701u et seq. Section 3 mandates that low-income persons residing in the community where the federally funded work is performed, and firms that employ such low-income persons from the community, should receive preference for the resulting jobs and contracts; and

WHEREAS, targeting such jobs to low-income Newark residents will also redress employment and poverty problems that affect Newark residents.

For the purposes of this definition, once a person qualifies as a low-income person, he or she shall be deemed to be a low-income person for the calendar year in which the contract is awarded and for the two succeeding calendar years.

1.13 Low-Income Newark Resident shall mean a Low-Income Person who resides in the City of Newark. If a Low-Income Person has no permanent place of residence, he or she may be considered a Low-Income Newark Resident if his or her most recent permanent place of residence was in the City of Newark, and his or her last date of permanent residence there was no more than 6 months before the date the Contract was awarded.

1.14 Low-Income Newark Resident Project Work Hour Commitment shall mean a legally enforceable written commitment by a Lead-Based Paint Activities Firm, made as a condition of entering into a Contract and/or of qualifying to bid on a Contract, that a specified percentage of the worker-hours the firm spends on the project will be performed by members of the Contract Work Force who are Low-Income Newark Residents.

Section 2. First Source Hiring Requirement

2.1 Bid specifications for all Contracts shall require that the Contractor, as a term of the contract, enter into a legally enforceable written "first source" hiring agreement whereby the contractor agrees to fill all New Hire Positions with trained Low-Income Newark Resident Lead-Based Paint Activities workers referred to the contractor by the Office of Affirmative Action.

2.2 For each grant of City Lead Abatement Assistance, the City shall incorporate into the City Lead Abatement Assistance Agreement a provision binding the Recipient of City Lead Abatement Assistance to require the contractor hired by the Recipient to comply with the First Source Hiring Requirement. In particular, the City Lead Abatement Assistance Agreement shall require the Recipient to incorporate the First Source Hiring Requirement into any Contract that the Recipient awards that is funded with City Lead Abatement Assistance.

2.3 When a Contractor determines that it has a New Hire Position to fill, it shall notify the Office of Affirmative Action. The Office of Affirmative Action shall then send the name or names of one or more trained Low-Income Newark Resident Lead-Based Paint Activities worker to the Contractor within 14 days. The contractor may decline to hire any worker referred to the contractor by the Office of Affirmative Action if the worker is unqualified, unable, or unwilling to perform the work required. However, the New Hire Position must still be filled by a worker referred by the Office of Affirmative Action.

2.4 In the event that one of the workers referred to a contractor by the Office of Affirmative Action is qualified, able and willing to perform the work required, the contractor shall notify the Office of Affirmative Action and shall specify the reason each of the referred workers was not hired. The Office of Affirmative Action shall review the reasons proffered by the contractor for not hiring each of the workers referred. If it appears that the workers referred were indeed not qualified, able, and willing to perform the work required, the Office of Affirmative Action shall then send the contractor the name or names of one or more additional trained Low-Income Newark Resident Lead-Based Paint Activities workers within 7 days of the date that the contractor notifies the Office of Affirmative Action of the unacceptability of the worker or workers previously referred.

2.5 In the event that none of the second group of workers referred is qualified, able, and willing to perform the work required, the contractor shall notify the Office of Affirmative Action and shall specify the reason each of the referred workers was not hired. The Office of Affirmative Action shall review the reasons proffered by the contractor for not hiring each of the worker or workers referred. If it appears that the workers referred were indeed not qualified, able, and willing to perform the work required, the Office of Affirmative Action shall be deemed to be unable to refer a qualified and acceptable worker to the contractor and the contractor shall be permitted to fill the New Hire Position from another source without violating the First Source Hiring Requirement.

2.6 In the event that (1) a New Hire Position opens up only after work on a contract has commenced, (2) the need to fill the New Hire Position was not reasonably foreseeable at an earlier date, and (3) it is necessary to fill the position expeditiously in order not to impede performance of the contract, then the procedures specified above shall govern with the following modifications: (1) the Office of Affirmative Action must send the contractor the name or names of the referred workers within 3 days of the contractor's request; and (2) if the contractor asserts that none of the first group of workers referred is qualified, able, and willing to perform the work required, and the reasons proffered appear well-founded to the Office of Affirmative Action, then the Office of Affirmative Action shall be deemed to be unable to refer a qualified and acceptable worker to the contractor, and the contractor shall be permitted to fill the New Hire Position from another source without violating the First Source Hiring Requirement.

Section 3. Referral of Qualified Low-Income Workers

3.1 The Office of Affirmative Action shall maintain a directory of Low-Income Newark Residents who have completed an Approved Lead Worker Training Program and who desires work with Lead-Based Paint Activities Contractors. Upon being contacted by a contractor seeking a Low-Income Position on a contract or to satisfy the Low-Income Newark Resident Project Work-Hour Commitment on a Jobs-Targeted Contract, the Office of Affirmative Action shall refer to the contractor the name or names of one or more workers from its directory or refer the contractor to a community-based organization registered with the Office of Affirmative Action as a referral service for Low-Income Newark Resident Lead-Based Paint Activities workers.

Section 4. Jobs-Targeted Contracting Plan

4.1 The City's goal shall be that a significant share of contracts be awarded to Lead-Based Paint Activities Firms that agree to employ substantial numbers of Low-Income Newark residents. This goal shall be implemented as follows:

4.2 Contracts representing not less than 50% of the total value of Contracts funded by the City each year shall be Jobs-Targeted Contracts. Included in this total are all contracts awarded directly by the City and all contracts awarded by Recipients of City Lead Abatement Assistance that are funded with City Lead Abatement Assistance.

4.3 For all Jobs-Targeted Contracts, it shall be a term of the Contract that the contractor must agree to a Low-Income Newark Resident Project Work-Hour Commitment of at least 50%. Where contracts are awarded by competitive bid, the Low-Income Newark Resident Project Work-Hour Commitment of at least 50% shall be a qualification for prospective bidder Lead-Based Paint Activities Firms. Only Lead-Based Paint Activities Firms that agree to a Low-Income Newark Resident Project Work-Hour commitment of at least 50% shall be deemed qualified and permitted to bid on such Jobs-Targeted Contracts.

4.4 In the case of contracts awarded directly by the City, the City shall incorporate the above Jobs-Targeted Contract requirements into the bid specifications of a sufficient number of contracts so as to achieve the requirement that 50% of the total value of contracts funded by the City each year be Jobs-Targeted contracts. In the case of contracts awarded by recipients of City Lead Abatement Assistance that are funded with City Lead Abatement Assistance, the City shall incorporate the Jobs-Targeted Contract requirements into a sufficient number of City Lead Abatement Assistance Agreements so as to achieve this 50% requirement each year.

4.5 For grants of City Lead Abatement Assistance that are subject to the Jobs-Targeted Contract requirements, the City shall incorporate into the City Lead Abatement Assistance Agreement a provision binding the Recipient of City Lead Abatement Assistance to enforce and comply with the above Jobs-Targeted Contract requirements. In particular, the City Lead Abatement Assistance Agreement shall require the Recipient to incorporate the Jobs-Targeted Contract requirements as a term of any contract that the recipient awards that is funded with City Lead Abatement Assistance.

4.6 The City shall have the discretion to award more than 50% of the total value of contracts awarded each year as Jobs-Targeted Contracts. In the event that, after good faith efforts, the City is unable to attract any qualified Lead-Based Paint Activities Firms to bid for and perform a Jobs-Targeted Contract, then the City shall have the discretion either to reduce the Low-Income Newark Resident Project Work-Hour Commitment below 50%, or to waive the Jobs-Targeted Contract requirement entirely and award the contract as a Non-Targeted Contract.

Section 5. Implementation and Enforcement.

5.1 Contracts awarded by the City shall provide and City Lead Abatement Assistance Agreements shall mandate that contracts awarded by recipients shall also provide, that contractors are legally obligated to comply with this ordinance and to honor any commitments or representations made pursuant to this ordinance. In particular, as noted above, these documents shall provide that contractors are legally obligated to comply with the First Source Hiring Requirement and, for Jobs-Targeted Contracts, with the 50% Low-Income Newark Resident Project Work-Hour commitment.

5.2 In the event that a contractor subcontracts any of the project work to a subcontractor, the contractor shall remain legally responsible both for complying with this ordinance and with commitments made pursuant to this ordinance and for ensuring that the subcontractor complies with the requirements of this ordinance and with commitments made by the contractor pursuant to this ordinance. The contractor shall provide the subcontractor with a copy of the contract and/or the bid package and specifications. The subcontractor shall also be independently responsible for complying with the requirements of this ordinance and with commitments made by the contractor pursuant to this ordinance. Subcontracts may only be awarded to subcontractors who agree, as a term of the subcontract, to comply with the First Source Hiring Requirement and, for Jobs-Targeted Contracts, with the 50% Low-Income Newark Resident Project Work-Hour Commitment.

5.3 In addition to the requirements set forth in this ordinance, contracts and subcontractors shall comply with the requirements set forth in the current regulations of the U.S. Department of Housing and Urban Development implementing Section 3 of the Housing and Urban Development Act of 1968, as amended. See C.F.R.135 et seq.

Section 6. Administration and Monitoring

6.1 The Department of Development shall implement this ordinance by incorporating into contract bid specifications and into contracts the language necessary to implement the First Source Hiring Requirement and, on Jobs-Targeted Contracts, the applicable 50% Low-Income Newark Resident Project Work-Hour Commitment. The Office of Affirmative Action shall be responsible for monitoring contractors' compliance with this ordinance. In particular, the Office of Affirmative Action shall monitor contractors' compliance with the First Source Hiring Requirement and, on Jobs-Targeted Contracts, with the applicable 50% Low-Income Newark Resident Project Work-Hour Commitment.

Section 7. Reporting

7.1 Before commencing work on a contract, each contractor shall file with the Office of Affirmative Action a report that lists the workers who will work on the Contract Work Force and that provides the following information for each worker: (1) the date the worker was hired by the contractor; (2) for permanent employees, the number of hours the worker worked for the contractor during the three months preceding the award of the contract; (3) whether the worker is a Low-Income Newark Resident; (4) whether the worker was referred by the Office of Affirmative Action; and (5) the worker's rate of pay. In the event that a worker is added to the contract Work Force after the filing of this initial report, the contractor shall promptly report the above information for the new worker to the Office of Affirmative Action. In the event that a worker is removed from the contract work force after the filing of this initial report, the contractor shall promptly report the removal to the Office of Affirmative Action. If the removed worker is a Low-Income Newark Resident, the report shall include an explanation of the reason for the removal.

Section 8. Determination of Noncompliance and Penalties for Violating Ordinance.

8.1 Where a contractor or subcontractor fails to comply with the First Source Hiring Requirement or, for Job-Targeted Contracts, fails to comply with the 50% Low-Income Newark Resident Project Work-Hour Commitment, or otherwise violates this ordinance, the contractor or subcontractor shall be deemed to be in noncompliance. When a contractor or subcontractor is deemed to be in noncompliance, the Office of Affirmative Action shall issue a warning to the contractor or subcontractor in order to afford it an opportunity to remedy its noncompliance. If the contractor or subcontractor does not fully remedy its noncompliance within 5 days, then (1) the Office of Affirmative Action shall be empowered to impose against the contractor or subcontractor a penalty of \$500 per day of noncompliance, and (2) the contractor shall be deemed to be in material breach of the contract. The contract shall specify that upon such a breach, the City shall be entitled to liquidated damages in the amount of 25% of the contract price. However, the City shall have discretion to demand an amount of liquidated damages less than the full 25% of the contract price. The contract shall specify that this provision does not in any way limit or replace any other remedies otherwise available to the City under any other law, including general Contract Law and the New Jersey Local Public Contracts Law. In addition, contractors or subcontractors, or individuals employed by contractors or subcontractors, that make or cause to be made false, deceptive, or fraudulent statements on any prequalification questionnaire connected with the contract may be punished pursuant to N.J.S.A. 40A:11-34.

8.2 Monies collected from penalties imposed shall be used by the City to fund implementation of this ordinance and/or to fund job training for Low-Income Newark Residents.

Section 9. Private Citizen Complaints

9.1 The Office of Affirmative Action shall establish a procedure for receiving, investigating, and adjudicating administrative complaints from private citizens charging that a contractor or subcontractor has failed to comply with (1) the First Source Hiring Requirement and/or (2) for Jobs-Targeted Contracts, the 50% Low-Income Newark Resident Project Work-Hour Commitment. The Office of Affirmative Action shall render a ruling on each private citizen administrative complaint within 90 days of the date of filing.

9.2 Only if the Office of Affirmative Action does not render a ruling on a private citizen's administrative complaint within 90 days of the date of filing, then the private citizen administrative complainant shall have the default right to seek review of the contractor's compliance by maintaining an action in the New Jersey Superior Court.

9.3 The private citizen administrative complainant's default right to Superior Court review shall be established by means of an explicit third-party right under the contract. Each contract shall specify that, pursuant to N.J. Rev. State. 2A:15-2, the private citizens of Newark are intended third-party beneficiaries of the contract, to whom the contractor owes a contractual duty to comply with (1) the First Source Hiring Requirement, and (2) for Jobs-Targeted Contracts, the 50% Low-Income Newark Resident Project Work-Hour Commitment. The contract shall further specify that in the event that the contractor fails to comply with either of these requirements, the contractor shall be deemed to be in material breach of the contractual duty owed to the private citizens of Newark.

9.4. The contract shall specify that to remedy such a breach, any private citizen of Newark shall be entitled to demand as a remedy that the contractor pay the City liquidated damages in the amount of 25% of the contract price. However, a condition precedent required in order for any private citizen of Newark to enforce his or her third-party rights under the contract shall be that the private citizen must have filed an administrative complaint with the City and the City must have failed to rule on the complaint within 90 days of the date of filing.

9.5 The contract shall further specify that, in the event that the City or a private citizen of Newark files suit against a contractor alleging a breach of the contractual duty owed to them by the contractor, and a court rules that the contractor has committed such a breach, then the contractor shall agree to reimburse the party or parties bringing the suit for their costs and to pay them reasonable attorney's fees.

Section 10. Implementing Regulations

10.1 The City's Department of Development and Office of Affirmative Action shall have authority to publish regulations implementing this ordinance. Such regulations shall be prepared in collaboration with interested community based-organizations, including those that participated in the development of this ordinance. Implementing regulation shall address any issue required for full implementation, but must establish the following.

10.3 B. Complaints

The regulations shall establish a system of forms and procedures for the administrative complaint process described above.

Section 11. Severability

11.1 In the event any provision of this ordinance is found to be unenforceable or invalid for any reason, that unenforceability or invalidity shall not affect the remaining parts of the ordinance, which shall be construed and enforced notwithstanding the unenforceable or invalid provision.

As you are aware, the proposed resolution for approval of the transfer conditions the transaction upon the final adjudication of the litigation between the shareholders of Nobe Urban Renewal Corporation. The NJHMFA states that the condition is unacceptable and will cause the agency to cease funding the project.

As of date, the NJHMFA and the Attorney General's Office have not expressed any concerns regarding the litigation, except those conditions set forth in the Request For Action By Members Of The New Jersey Housing And Mortgage Finance Agency.

If you have any questions regarding this matter, please notify me.

Re: Ebon Square

Dear Mr. Miles:

It is this Agency's understanding that the City of Newark intends to condition approval of the transfer and extension of the Ebon Square tax abatement on final adjudication and disposition of the Jackson/Nobe dispute. This Agency has considered the proposed condition and respectfully must state that it be unacceptable.

Clearly conditioning transfer of the tax abatement on "final adjudication and disposition" essentially means that the following will not occur in a timely fashion, if at all:

1. Transfer of ownership
2. Low-Income Tax Credit Syndication and an additional \$283,000 in owner's cash
3. Availability of \$250,000 in committed City funds
4. Availability of \$337,000 in NJHMFA funds

In essence, the proposed condition will be perpetuating an \$870,000 funding gap regarding both the development budget and infeasibility regarding the budget for annual operations. Therefore, it is the position of this Agency that the proposed City condition will cause this Agency to cease funding the project and issue a stop work order and in all likelihood, initiate foreclosure.

This Agency has worked with the current owner, the proposed new owner and the staff of the City of Newark to re-establish the feasibility of Ebon Square. It is this Agency's opinion that the proposed condition will conflict with those efforts.

Very truly yours,

Michael R. Floyd
Director of Strategic Planning

BOARD OF ADJUSTMENT APPEAL.

4-a-1. The City Clerk read in the matter of application of Rui Silva, Applicant and Edward J. Short, Owner, to permit in a Third Residential Zone proposed machine shop which is not a permitted use; for premises known as 99 Pennington Street.

(Copy of transcript submitted to each Member of the Council)

(Mr. Robert E. Lee and Ms. Josephine Sadowski, Appellants)

(Board of Adjustment hearing held February 14, 1996)

(Transcript filed March 6, 1996)

The Board of Adjustment at its regular meeting held February 14, 1996, approved the application by six Ayes, no Nays.

An appeal in this matter was filed in the Office of the City Clerk on February 20, 1996, by Mr. Robert E. Lee and Ms. Josephine Sadowski.

The transcript in connection with this matter was received March 6, 1996, and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On March 11, 1996, the City Clerk notified the applicant, the applicant's attorney, the appellants and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting of April 3, 1996, at 1:00 P.M., in the Council Chamber, Second Floor, City Hall, Newark.

President Bradley stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the Matter of Application of Rui Silva, Applicant and Edward J. Short, Owner, to permit in a Third Residential Zone proposed machine shop which is not a permitted use; for premises known as 99 Pennington Street. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and the place for the appeal to commence.

MR. MICHAEL OLIVERA, ESQ., 292 LAFAYETTE STREET, NEWARK, NEW JERSEY, representing Mr. Rui Silva, applicant, urged the Members of the Municipal Council to affirm the decision of the Board of Adjustment.

MS. JOSEPHINE SADOWSKI, 289 NEW YORK AVENUE, NEWARK, NEW JERSEY addressed the Members of the Municipal Council opposing the establishment of a machine shop in this location which will be a health hazard to the residents.

A lengthy discussion was held by the Members of the Municipal Council

Council Member Martinez stated "I have reviewed the transcript regarding the matter referenced and the facts are set forth below.

The property is located at 99 Pennington Street and is a 30 by 100 foot lot which is presently used as a cement mixing business and warehouse.

The area within the 200 foot radius of the property consists of mixed residential, commercial and industrial uses with some vacant lots.

The applicant, Rui Silva, applied for a D variance to change the existing use to a machine shop where he converts pieces of metal into parts. This is a one man operation. Mr. Silva picks up the materials needed in his pickup truck, which is parked on the premises, and delivers the completed parts to his customers himself. His customers will usually not come to the business.

His hours of business are from 8:00 a.m. until 8:00 p.m. The deliveries to his business are by United Parcel once or twice a week. This being the case, there is no real impact on the community in the way of traffic, parking or congestion.

The applicant uses lathes, grinders and milling machines in his business, which cut and form the machine parts. He testified that these machines are not noisy. There are no kind of chemicals used in the business thus there will be no environmental problems.

Edward Short, the owner and current occupant of the property since the 1960s, testified that his business is seasonal, from April until December, and consists of putting coatings on the exterior of masonry structures. His hours of operation are from 7:00 a.m. until 7:00 p.m. He has eight employees.

He further testified that he gets deliveries, by flatbed tractor trailer truck, of approximately 42 tons of cement filler or limestone, which is unloaded on the site.

He stated that the proposed business would have a lesser impact on traffic than his present business.

One objector's concern was in regards to the large trucks used in the present business which cause residents parked nearby to move their cars to allow for the coming and going of the large trucks. The Chairman advised the objector that this situation will change with the new business, which uses only one pickup truck and will not cause the same problem.

Another objector complained that the vibration from the machinery used would probably knock the plaster off his walls due to the vibration of the presses. He was advised that there would be no presses used in the business.

April 3, 1996

The third objector objected to any business being on the site as he is building a two family house next door and desires that the area be "cleaned up a little". The Chairman advised him that the existing business was there legally and was in existence before he came to the neighborhood and that was not the reason for the hearing.

Considering all the testimony and the fact that the objector's concerns were with the existing business and not the proposed use, the Board decided that the proposed use is less intrusive to the neighborhood than the existing use. There will be less traffic generated by the proposed use and no eminent health hazards. Further same would result in an advantage to the community.

Based upon my review of the transcript, I find that the decision of the Zoning Board of Adjustment should be affirmed."

A motion to affirm the decision of the Board of Adjustment was made by Council Member Martinez, seconded by President Bradley and failed of adoption by the following votes:

Yes: Council Members Branch, Martinez, President Bradley.

No: Council Member Crump.

Not Voting: Council Members Chaneyfield, Quintana, Rice.

Absent: Council Members Carrino, Tucker.

At a later time in the meeting after Ordinance 6-Ph, S & F-g, Council Member Carrino requested his vote be recorded in the affirmative and Council Member Quintana requested his vote be changed from not voting to the affirmative.

A motion to affirm the decision of the Board of Adjustment was made by Council Member Martinez, seconded by President Bradley and declared adopted by President Bradley by the following votes:

Yes: Council Members Branch, Carrino, Martinez, Quintana, President Bradley.

No: Council Member Crump.

Not Voting: Council Members Chaneyfield, Rice.

Absent: Council Member Tucker.

The City Clerk: The following ordinance was adopted on first reading, advertised in accordance with law and a hearing date set. It is now before you for public hearing, second reading and final passage:

Ordinance to amend Title 11 B, Flood Damage Protection of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented (To provide revisions required by the Federal Emergency Management Agency.)

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT:

Section 1. Section 11B:2-1, Definitions, shall be amended as follows:

Development means any man made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations or storage of equipment or materials located within the area of special flood hazard.

Flood plain management regulations means zoning ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances (such as a flood plain ordinance, grading ordinance, and erosion control ordinance) and other applications of police power. The term describes such State or local regulations, in any combination thereof, which provide standards for the purpose of flood damage prevention and reduction.

Historic Structure means any structure that is:

- a. Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register.
- b. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a preliminarily registered historic district.
- c. Individually listed on a State inventory of historic places in States with historic preservation programs which have been approved by the Secretary of the Interior; or
- d. Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:
 - (1) By an approved State program as determined by the Secretary of the Interior; or
 - (2) Directly by the Secretary of the Interior in States without approved programs.

Manufactured home means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when attached to the required utilities. The term manufactured home does not include a "recreational vehicle".

Recreational vehicle means a vehicle which is (i) built on a single chassis; (ii) 400 square feet or less when measured at the longest horizontal projections; (iii) designed to be self-propelled or permanently towable by a light duty truck; and (iv) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel or seasonal use.

Start of Construction (for other than new construction or substantial improvements under the Coastal Barrier Resources Act - P.L. No. 97-348) includes substantial improvements and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site such as the pouring of a slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation, or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling nor does it include the installation of streets and/or walkways, nor does it include excavation for a basement, footings or piers, or foundations or the erection of temporary forms, nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration effects the external dimensions of the building.

Structure means a walled and roofed building, a manufactured home, or a gas or liquid storage tank, that is principally above ground.

Substantial damage means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would be equal or exceed 50 percent of the market value of the structure before the damage occurred.

Substantial improvement means any reconstruction, rehabilitation, addition or other improvement of a structure, the cost of which exceeds 50 percent of the market value of the structure before the "start of construction" of the improvement. This term includes structures which have incurred "substantial damage", regardless of the actual repair work performed. The term does not, however, include either:

- (1) Any project for improvement of a structure to correct existing violation of State or local health, sanitary or safety code specifications which have been identified by the local code enforcement officer and which are the minimum necessary to assure safe living conditions; or
- (2) Any alteration of a "historic structure", provided that the alteration will not preclude the structure's continued designation as a "historic structure".

New construction means structures for which the start of construction commenced on or after the effective date of the floodplain regulations adopted by the City and includes any subsequent improvements to such structures.

New manufactured home park or subdivision means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of the floodplain management regulations adopted by the City.

The flood insurance study and revisions are on file in the Department of Engineering, City Hall, 920 Broad Street, Room 410, Newark, New Jersey, 07102 and in the offices of the City Clerk.

Section 3. Section 11B:3-9(b) Conditions for variances shall be amended as follows:

(b) Variances may be issued for the repair or rehabilitation of historic structures upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum necessary to preserve the historic character and design of the structure.

Section 4. Section 11B:4-8(c) Floodways, shall be amended as follows:

(c) In all areas of special flood hazard in which base flood elevation data has been provided and no floodway has been designated, the cumulative effect of any proposed development, when combined with all other existing and anticipated development, shall not increase the water surface elevation of the base flood more than two-tenths (0.2) of a foot at any point.
